[[en:{{FULLPAGENAME}}]] [[de:index.php/Hauptseite/AHESN]] [https://ahesn.at/ AHESN], the "Austrian Higher Education Systems Network" is an open, standardised, Austria-wide exchange format for data in the education sector and is used in teacher training and NAWI Graz studies, that are offered jointly by two or more universities /educational institutions. This open interface is independent of the online system used by an educational institution. The project [https://ahesn.at/ AHESN] defines and develops an interface for the coupling on system level. The digitally modelled common curriculum serves as a bracket for the exchange of the following data: * Basic technical info * Final thesis (currently information about the completed master thesis) * Recognition * Attendance count for exams * Curriculum position * Content bracket (=equivalent to the equality node across educational institutions) * Course incl. course registration * Examination course incl. examination date and examination registration * individual performance record * Studies (extension of existing data exchange e.g. reasons for termination of studies) Students or teachers of NAWI Graz do not have to make any settings in order to use functionalities of AHESN, as this is done automatically on system level.

[[en:{{{FULLPAGENAME}}}] [[de:/index.php/Hauptseite/Technisch-organisatorische_Besonderheiten/Student_Card]] Although both universities use the same technology of Mifare chip cards, the data of the reading devices at the doors between the universities are not synchronised for reasons of data protection. NAWI Graz students receive a Student Card from the admitting university. If it is necessary to grant access to locked rooms of the respective other university (e.g. in the context of the master thesis), this is done as follows - if no conventional physical keys are used: * Uni Graz-approved students can get a TU Graz student card at the [https://www.tugraz.at/en/tu-graz/organisational-structure/service-departments-and-staff-units/registrars-office registrar's office of TU Graz] and the locking authorisation for TU Graz rooms will be installed there. * TU Graz-approved students install the [https://apps.uni-graz.at/en/youni/ YOUNI app] on their Android device or Iphone and the locking authorisation is then done via it.
