Both universities offer their students free use of the university's internal cloud instances. The servers are operated at the locations of the respective universities and are also used for teaching purposes.

### Aktuelle Version vom 2. Oktober 2023, 14:55 Uhr

Both universities offer their students free use of the university's internal cloud instances. The servers are operated at the locations of the respective universities and are also used for teaching purposes.

Students can share files between the instances of the universities if the personal *Federated Cloud ID* is used for this purpose. If necessary, this ID must be exchanged manually for data protection reasons.
